COLOUR CHANGE LED MINI LIGHT BAR	4
FORKLIFT LED LINE LIGHT	5
SMARTSPOT FORKLIFT LED WARNING LIGHT	6
LED COMPACT WORK LAMP	7

## ONE LIGHT, DUAL OUTPUTS

### Colour Change LED Mini Light Bar

The AusProTec™ LED colour change light bar is cleverly designed to make surrounding personnel aware of a machine's status.

A trigger wire will interchange the light from amber to green to convey whether the machine is safe to approach.

The low profile and compact design is ideal for installation on small to medium sized machines.

### Features

- Compact in design - 165mm long and 44mm high
- 14 flash patterns
- Utilising the latest high output LED technology
- Multi-voltage
- Full 350 degree light dispersion
- Environmentally sealed

### Specifications

Voltage	12 - 30 VDC
Maximum Current Draw	3A @ 12 VDC
Flash Patterns	14
Mounting	4 x M5 Bolts
Lens	Polycarbonate
Housing	Aluminium
Cable Length	0.4m
Weight	1kg
Light Source	4 x 4 LED Modules
Flash Colour	Amber / Green
Ingress Protection	IP67
Operating Temperature	-40°C to 60°C

### Parts

13470 COLOUR CHANGE LED MIN LIGHT BAR  
AMBER / GREEN

## Forklift LED Line Light

RCT has developed the forklift LED Line Light in response to industry demands.

This light is specifically designed to project an exclusion line onto the floor of a warehouse to alert nearby personnel of the safe zone of the vehicle.

The Line Light is available in blue and red.

## SmartSpot Forklift LED Warning Light

Keeping up with industry standards, RCT has developed the forklift LED warning light.

Available in blue and red beam, this light is specifically designed to project a visual caution mark onto the floor of your warehouse, alerting nearby people and other machine users that a vehicle is approaching.

## Specifications

Voltage	9 - 80 Volts DC
Power	2 x 3 Watt Cree leds
Material	Die cast aluminium housing
Reflector and lens	Poly carbonate
Mounting bracket	Stainless steel
Termination	500mm flying lead
Beam pattern	Spot

## Parts

12416	SMARTSPOT LED FORKLIFT WARNING LIGHT BLUE	
12429	SMARTSPOT LED FORKLIFT WARNING LIGHT RED

## Reliable, affordable lighting for harsh conditions

### LED Compact Work Lamp

Representing the latest in high output lighting technology, the AusProTec™ Compact LED work light is robust, powerful and resistant to shock, vibration, dust and moisture.

With solid-state LED construction and a fully sealed housing (rated to IP67), this LED work light takes durability and reliability to the next level.

This work light features rugged and lightweight die-cast alloy housing, stainless steel mounting hardware, and virtually unbreakable polycarbonate optical lenses. Containing 4 x 2.5 watt LED's, this multi voltage unit has a 550 lumen output making it a perfect solution for your compact lighting application.

### Specifications

Voltage:	10–52V multi-voltage
Output:	550 lumen (4x 2.5W LEDs)
Current Draw:	0.9A @ 12V   0.4A @ 28V
Dimensions:	66mm (H) x 66mm (W) x 65mm (D)
Beam Pattern:	36° trapezoid
Beam Distance:	37m @ 1 lux

### Parts

11514 LED WORK LAMP 9 - 52V 10 WATT 4 X 2.5 WATT LED
